ABSTRACT

Vocabulary development activities to be used with the stories in the Ginn 720 Reading Series Level 9 textbook are offered. The introduction recommends a method of presenting the activities. For each story that appears in the textbook, a vocabulary list and a learning activity are given. At the end of each of five units, a unit vocabulary test is provided along with answer keys for the activities in the unit and for the unit test. The activities include matching words with definitions, "concentration" games, word puzzles, circling words that don't belong, filling in the blank with the correct word, unscrambling letters, and supplying the word that fits the definition. This document is part of a collection of materials from the Iowa Area Education Agency 7 Teacher Center project. (DC)

INTRODUCTION

This program was developed to be used with Level 9 of the Ginn 720 Reading Series. Its purpose is to aid the child in mastering the vocabulary words found in his book.

The following steps are recommended:

1) Hand out the worksheet with the vocabulary words for the next story. Read through the list with the children before having them look up the words. They look up the definition that is appropriate for the word's use in the story. This is indicated behind the word. "G" stands for glossary and "D" stands for dictionary. They write down the definition behind the word.

2) The child will then study the words along with the definitions.

3) After the child has finished studying, he will use the practice folder that corresponds to the story.

4) This same procedure is followed for each story.

5) At the culmination of a unit, the vocabulary test is given.
